SEPTEMBER 19, 2023**

TO TRANSLATE TERTIARY LYMPHOID STRUCTURES INTO THE CLINIC

Organizing Committee

Stefano Casola

Anna Dimberg

Magnus Essand

Hervé Fridman

Paola Nisticò

Catherine Sautès-Fridman

Claudio Tripodo

*The scope of this one-day workshop is to highlight
the biological properties and clinical relevance of tertiary lymphoid
structures in anti-cancer immune responses*

Tuesday, September 19, 2023

10.30 - 11.30 Welcome coffee and registration

SESSION 1 - At the (germinal) center of tertiary lymphoid structures

Chairman: Claudio Tripodo

11.30 - 12.15 Lecture Stefano Casola

12.15 - 13.00 Lecture Catherine Sautès-Fridman

13.00 - 14.30 Light lunch

SESSION 2 - Tertiary lymphoid structures in anti-cancer immune responses: pre-clinical and clinical perspectives

Chairmen: Catherine Sautès-Fridman

Paola Nisticò

14.30 - 15.00 **Industry Session - Digital Pathology in the clinic**

14.30 - 14.45 *Unlocking the Potential: Exploring PD1/PDL1 Interplay and Beyond for Immunotherapy
in Cancer*

Lena Beckman

14.45- 15.00 TBD

15.00 - 15.30 Claudio Tripodo

15.30 - 16.00 Nikhil S. Joshi

16.00 - 16.30 *Tailoring vascular phenotype through AAV therapy promotes T cell rich TLS and boosts
anti-tumor immunity in glioma*

Anna Dimberg

16.30 - 17.00 *Impact of tertiary lymphoid structures on the tumor-specific T cell landscape and
immunotherapy response*

Daniela Thommen

FACULTY

Lena Beckman - Navinci Diagnostics, Uppsala - Sweden

Stefano Casola - IFOM Istituto Fondazione di Oncologia Molecolare, Milano - Italy

Anna Dimberg - University of Uppsala, Uppsala - Sweden

Nikhil S. Joshi - Yale University School of Medicine, New Haven - USA

Paola Nisticò - Regina Elena National Cancer Institute, Roma - Italy

Catherine Sautès-Fridman - Pierre and Marie Curie University, Paris - France

Daniela Thommen - The Netherlands Cancer Institute, Amsterdam - The Netherlands

Claudio Tripodo - Università degli Studi di Palermo, Palermo - Italy
